

# How To:

## Set Up a Booth at School Events

1) Figure out which school events are going on that you can attend with your assembly. Get in contact with the school via email, Facebook, Instagram, etc. and express your interest in attending their event.

2) If you get approval from the school to set up a booth at the event, you will now need to think about the setup of your booth. You will want it to look both professional and eye catching. One thing you should try to incorporate in your booth is a tri-fold board with information about Rainbow. You will also want to bring things such as flyers, business cards, brochures, etc. It is always nice to also have things such as stickers or fun pencils to hand out as well!

3) Now, you can set your booth up! Don't forget to have your assembly in rainbow gear. This can be matching IORG Shirts! Remember to be social and welcoming with everyone! Also remember to write down the name and contact information of potential members! You can invite them to upcoming events with your assembly, or have flyers ready for an open meeting to invite them to. Have fun with it and try to answer any questions that they may have!
